Aftabuddin Mallick

Frontend Developer | React.js Developer

+91-7602835166 | aftabuddin5.mallick@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Information Technology student (2027) with hands-on experience building and deploying responsive web applications using React.js, JavaScript (ES6+), Tailwind CSS, and Redux. Skilled in REST API integration, state management, authentication, and reusable components. Solved 100+ DSA problems. Seeking a Frontend Developer opportunity.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C, C++
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Responsive Design, Flexbox, CSS Grid
React Ecosystem: React Hooks, Context API, Redux, useReducer, React Router, Protected Routes, Reusable Components
API & Authentication: REST APIs, Axios/Fetch, JWT Authentication, Role-Based Authorization
Tools & Concepts: Git, GitHub, VS Code, npm, Vite, Vercel, localStorage, DSA, OOP

EDUCATION

MCKV Institute of Engineering — **2023 – 2027 (Expected)**
B.Tech in Information Technology — CGPA: 7.92 (up to 6th Semester)
Relevant Coursework: DSA, OOP, DBMS, OS, Computer Networks

Panjipukur Smt Tulshi Devi Smriti Vidyapith — **2020 – 2022**
WBCHSE Class XII — Percentage: 88.6%

PROJECTS

Shopwise: E-Commerce Store with Admin Panel — Live Demo | GitHub
React.js, Tailwind CSS, React Router, Context API, Vite, REST API

- Built a responsive e-commerce application with product browsing, cart, checkout, and an admin panel.
- Implemented JWT authentication, role-based authorization, and protected routes for admin access and authenticated checkout.
- Managed authentication, cart, and notifications using Context API and useReducer, with localStorage persistence.
- Integrated DummyJSON REST APIs with debounced search, category filtering, sorting, and server-side pagination.
- Added form validation, loading skeletons, retry-based error handling, and deployed on Vercel with SPA routing.

GariBondhu: Transport Booking System — Live Demo | GitHub
React.js, Tailwind CSS, React Router, Context API, Vite

- Built a two-sided transport marketplace connecting vehicle owners and customers, with role-based login and protected routes.
- Designed a return-trip pricing feature offering automatic discounts to customers booking an owner's otherwise empty return journey.
- Implemented route search, distance-based fare calculation, vehicle-type filtering, sorting, and pagination.
- Developed an owner dashboard for vehicle uploads, return-trip listings, and booking approval or rejection.
- Added booking-confirmation-based contact access, Call/WhatsApp options, and an 8% platform commission model.
- Implemented form validation, loading skeletons, retry-based error handling, and responsive UI.

ACHIEVEMENTS

- Solved **100+ DSA problems** covering arrays, strings, searching, sorting, linked lists, stacks, and queues.
- Built and deployed **2 responsive React.js applications** and maintained documented GitHub repositories.
